

CURTIS RASHAAD JONES

Information Technology Specialist | Systems Support & Network Administration

Hanover, MD 21076

(646) 991-6652

rashaadjones71@gmail.com

PROFESSIONAL SUMMARY

U.S. Army Veteran and IT Specialist with 4 years of dedicated military network administration experience combined with an engineering background managing high-compliance automated systems. Proven track record troubleshooting enterprise software/hardware, managing LAN/WAN infrastructure, and maintaining data integrity in high-stakes environments. Expert at translating complex system failures into rapid technical resolutions under tight SLAs. Currently leveraging a B.S. in Cybersecurity to transition into long-term remote IT Operations and Enterprise Support roles.

CORE TECHNICAL SKILLS

- Enterprise IT & Networking: Network Administration, LAN/WAN Configuration, TCP/IP, DNS/DHCP, Active Directory, Hardware/Software Deployment, Systems Troubleshooting, Tier 1/2 Support.
- Systems & Infrastructure Validation: Systems Integration, Change Control Management, Equipment Calibration, Systems Monitoring, Technical Documentation, SOP Development, Patch Management.
- Compliance & Automated Platforms: MES Platforms, DeltaV, Syncade, LIMS, Electronic Quality Management Systems (EQMS), Data Acquisition Systems.
- Information Assurance (In Progress via WGU): Network Security, Cloud Security Compliance, Identity & Access Management (IAM), Incident Response, Vulnerability Assessment.

PROFESSIONAL EXPERIENCE

INFORMATION TECHNOLOGY SPECIALIST | United States Army | Apr 2014 – Mar 2018

- Managed end-to-end network administration, enterprise system configurations, and Tier 2 technical support for 500+ military and civilian personnel.

- Configured, deployed, and maintained local area networks (LAN/WAN), routing protocols, peripheral equipment, and command consoles under high-pressure deployment conditions.
- Diagnosed and repaired complex hardware failures, software bugs, and network connectivity drops, consistently exceeding operational uptime and SLA metrics.
- Planned and executed strict validation testing and security patching for incoming computer systems to safeguard data integrity and system availability.
- Maintained 100% accountability and operational readiness of critical technical infrastructure and IT assets valued over \$1M+.

QA SUPERVISOR (Contract) | Aphenia Pharmaceutical | Jan 2026 – Apr 2026

- Administered digital asset workflows, user access permissions, and critical data streams across the corporate EQMS network.
- Served as the primary technical escalator for system data errors, executing hardware/software troubleshooting to ensure uninterrupted operations for compliance teams.
- Audited automated labeling software architectures and automated validation data, maintaining a zero-error rate.

QC LAB CHEMIST II | Industrial Test Systems | Apr 2025 – Sep 2025

- Calibrated, maintained, and troubleshoot data-acquisition devices and diagnostic IT hardware tools.
- Authored comprehensive technical documentation, system restore guides, and standard operating procedures (SOPs) to align with evolving digital compliance baselines.

GMP SUPERVISOR | SBM Corporation | Jul 2024 – Mar 2025

- Acted as the lead systems liaison between corporate IT/management and operational staff, translating system outages into actionable technical fixes.
- Managed cross-facility equipment databases and audited physical/digital infrastructure asset inventories.

SENIOR MANUFACTURING ASSOCIATE | Moderna Therapeutics | May 2023 – Nov 2023

- Deployed, monitored, and maintained automated MES software platforms and server-side digital workflows to track production operations in real time.
- Collaborated directly with Systems Engineers and Supply Chain teams to resolve database discrepancies and network resource allocation bottlenecks.

BIOTECH PRODUCTION SPECIALIST / PROCESS SCIENCES ASSOCIATE | Regeneron Pharmaceuticals | May 2018 – Oct 2021

- Served as the on-site Subject Matter Expert (SME) for data analysis software applications, guaranteeing continuous software operational readiness.
- Led a high-priority system migration project migrating analytical database platforms; stress-tested data migration across 1,000+ data sets to verify complete data integrity.
- Audited digital event logbooks and validated database entry compliance utilizing DeltaV, Syncade, and LIMS software suites.

EDUCATION & ACADEMIC TRANSITION

WESTERN GOVERNORS UNIVERSITY | Salt Lake City, UT

B.S. in Cybersecurity and Information Assurance | Expected Graduation: 2027

- Accelerated, competency-based IT program embedding 11 industry-standard certifications directly into the active technical curriculum.
- Active Framework Focus: Network Security, Digital Forensics, Cloud Security Compliance, Ethical Hacking, Infrastructure Scripting, Incident Handling.

MANHATTAN COLLEGE | Bronx, NY

B.S. in Chemical Engineering | Minors: Mathematics & Chemistry

- Relevant Engineering Coursework: Computer Usage & Systems Integration, Digital Programming, Professional Design Packages, Data Acquisition Systems, Advanced Engineering Mathematics.

TECH CERTIFICATIONS IN PROGRESS (WGU Pathway)

- CompTIA Tier: Security+, Network+, A+, CySA+, PenTest+, Cloud Essentials+, Project+
- ISC2 Tier: Certified in Cybersecurity (CC), Systems Security Certified Practitioner (SSCP)
- ISACA / ITIL: Certified Information Security Manager (CISM Curriculum), ITIL 4 Foundation (ITSM)
