NetSuite Developer

Profile

NetSuite Developer with hands-on experience building SuiteScript 2.x solutions, RESTlet integrations, and ERP-connected automation in a live eCommerce environment. Experienced supporting NetSuite workflows, product data automation, and system improvements while working alongside business and technical teams.

Skills & Certifications

- NetSuite Administrator
- NetSuite SuiteFoundation
- SuiteScript
- HTML/CSS/JavaScript/Python

Professional Experience

University of Arizona
Ecommerce Specialist

Feb 2023 - Present

Architected a NetSuite SDF CLI deployment pipeline integrated with Git, enabling version-controlled sandbox-to-production releases and eliminating manual file transfers across SuiteScript customizations.

Designed and deployed custom MCP tools connecting Claude AI to NetSuite, enabling natural language-driven product collection builds, item visibility management, and inventory workflows.

Built and maintained a Python integration using NetSuite RESTlets to retrieve internal item IDs and matrix relationships, supporting downstream product and assortment workflows.

Built a Power Automate workflow triggered from Microsoft Teams to initiate new product assortments, automatically creating folders, image directories, and progress logs.

Managed SuiteCommerce product catalog operations across 10+ vendor brands including Nike, Champion, and lululemon, overseeing seasonal assortment launches from purchase order to web publish.

Uesco Cranes
Ecommerce Manager

Feb 2018 to Jan 2023

- Increased online sales from \$550K to \$1.5M by managing 10,000+ product listings and building a scalable eCommerce infrastructure.
- Defined and implemented an automated rollout strategy for launching a new eCommerce business, including categorization logic, marketing automation, and platform design.

Joliet Junior College
Lead Web Admin & Web Designer

Aug 2011 to Dec 2016

- Managed redesign of JJC.edu for thousands of users; led cross-functional teams through research, design, and deployment.
- Directed purchasing decisions for software tools and led the college's internal web development efforts.

Education

Saint Xavier University Bachelor of Arts Graphic Design
