

M. WAJIH UL HASSAN

Senior NetSuite Developer | Techno-Functional Consultant | Administrator

Lahore, Pakistan • +92 344 4678233 • wajihhasan0@gmail.com

PROFESSIONAL SUMMARY

NetSuite Developer and Techno-Functional Consultant with end-to-end ownership of ERP implementations across the US, UAE, KSA, Kuwait, India, Pakistan, and other regions. Delivered 300+ reports, 50+ integrations, 100+ workflows, and full HRMS suites for 6+ clients across multiple industries. Independently designed and shipped a custom RFQ platform that replaced an expensive third-party module, saving the client thousands monthly. Five Oracle NetSuite certifications (2025) covering Financials, BI & Reporting, and AI Foundations. Strong record of translating business requirements into scalable, automated solutions on tight timelines. Worked across 40+ NetSuite accounts, delivering customizations, integrations, and tailored solutions aligned with business requirements.

CORE COMPETENCIES

- **Development:** SuiteScript 1.0 / 2.x / 2.1 (Map/Reduce, User Event, Scheduled, Client, Suitelet, RESTlet, Workflow Action), SuiteFlow, SDF, Advanced PDF/HTML Templates (FreeMarker), SuiteQL, SuiteTalk REST APIs.
- **Administration:** Multi-subsidiary setup, role/permission design, sandbox refresh and deployment, CSV import/export, system audits, release management, SuiteApp installation, security and 2FA configuration.
- **Functional:** Order-to-Cash, Procure-to-Pay, Quote-to-Cash, Record-to-Report, HRMS, intercompany consolidation, requirement gathering, solution design, UAT, and post-go-live support.
- **Analytics:** Saved Searches, Workbooks, Dashboards, financial reporting (P&L, BS, CF, AR/AP Aging), executive KPI dashboards, and custom HTML reporting interfaces.
- **Tools:** SuiteCloud CLI, VS Code, Git/GitHub, JavaScript, JSON, REST middleware.

PROFESSIONAL EXPERIENCE

NetSuite Administrator / Developer — Cedar Financial (US)

Jul 2025 – Present

Sole owner of the NetSuite environment for a US financial services firm operating 8+ subsidiaries with complex intercompany flows.

- Architected and deployed a custom HTML-based Aging Reports dashboard with drill-down from executive summary to individual invoices across 0–30, 31–60, 61–90, and 90+ day buckets — cut collections reporting cycle time substantially and accelerated follow-up workflows.
- Designed and implemented RESTlet- and middleware-based integrations between NetSuite, internal collections portals, and external partner systems for real-time financial data exchange.
- Administer and maintain the full environment end-to-end: user provisioning, roles and permissions, feature enablement, sandbox refreshes, and controlled production deployments.
- Develop financial and operational dashboards and KPIs for executive, finance, and collections leadership.

NetSuite Administrator / Developer — Dynasoft CloudJan 2024 – Jul 2025

Dual development and administration role across 10+ client implementations spanning UAE, KSA, and Pakistan.

Selected client engagements:

- **Dominant Digital Distribution** — Independently designed, built, and deployed a full custom RFQ platform in 2 months, replacing an expensive third-party SuiteApp. Includes vendor management, automated price comparison, multi-level approvals, vendor email automation, and PDF generation. Currently processing 100+ RFQs per month with zero critical incidents since launch.
- **Deve Energy** — Delivered a custom Proforma Invoice system using a Map/Reduce script processing 10,000+ line items with automated PDF generation and distribution. Reclaims ~15 hours of manual work per week.
- **FIGS** — Built 12+ Order-to-Cash and Procure-to-Pay automations and real-time inventory sync across subsidiaries; reduced order processing time by 40%.

- **The Aimes (KSA)** — Developed a custom PO Billing Plan solution for installment-based purchase orders with a custom date-management UI and 3-tier approval workflow; automated project task creation reduced manual effort by 70%.
- **FloorWorld LLC (Dubai)** — Multi-subsidiary deployment with 25+ custom records, FreeMarker-based PDF templates, automated email workflows, and consolidated cross-subsidiary reporting.
- **Eideal Trading LLC** — Built a dynamic Advanced PDF template framework (21 templates) that adapts output by transaction type across multiple subsidiaries.
- **The Source — Medici Fashion** — Delivered a customized HRMS with an integrated Recruitment Management System (candidate tracking, interview scheduling) and a weighted-KPI performance appraisal engine.

HRMS practice:

- Designed and shipped a 7-module HRMS suite (Payroll, Leave, Attendance, Loan, Gratuity, Reimbursement, Appraisal) deployed to 6+ clients across UAE, KSA, and Pakistan with zero critical post-launch issues.
- Reduced payroll cycle processing time from 8 hours to 4 hours through automation; improved HRMS report generation speed by 60% via Map/Reduce optimization.
- Developed multi-level approval workflows, email notifications, and 15+ Advanced PDF templates for payslips, appraisals, and loan documents.

Delivery footprint:

- Extensive SuiteScript development including Map/Reduce, User Event, Scheduled, and Client Scripts (300+ scripts overall), along with 30+ RESTlets and 100+ workflows.
- Administered users, roles, sandbox cycles, and SuiteApp installations for 50+ users; mentored junior developers on SuiteScript and NetSuite best practices.

Junior NetSuite Developer — Dynasoft CloudOct 2023 – Dec 2023

- Onboarded into SuiteScript 2.1, SuiteFlow, and SuiteBuilder; shipped first production project — an Incentive Management System for Flow Trading LLC (UAE) — within three months, automating commission calculations and sales tracking.

NetSuite Developer / Consultant (Freelance) — Self-Employed

Jan 2024 – Present

- Selective independent engagements alongside full-time work: 30+ custom scripts, 15+ Advanced PDF templates, and 5+ RESTlet-based integrations across multiple industries.

SELECTED ACHIEVEMENTS

- Replaced an expensive third-party SuiteApp with a custom RFQ platform, delivered solo in 2 months — saving the client thousands of dollars monthly.
- Authored 300+ production reports and dashboards spanning financial, operational, and executive analytics.
- Cut payroll processing time by 50% and HRMS report generation time by 60% across HRMS deployments.
- Deployed full HRMS suites to 6+ clients across three countries with zero critical post-launch issues.
- Mentored junior developers and established SuiteScript best-practice standards within the team.
