Houston, TX • 346-608-1395 • Michael.w28@outlook.com

Endpoint Management Engineer | Intune Architect | Modern Workplace Specialist

Professional Summary

Modern Endpoint Engineer with 20+ years of enterprise IT experience specializing in Microsoft Intune, Entra Virtual Desktop, SCCM/MECM, and cross-platform endpoint management. Led large-scale enterprise migrations including 100,000+ device Jamf to Intune transitions across Windows, macOS, and iOS. Deep expertise in Windows Autopilot, Entra ID, Conditional Access, BitLocker, and modern security baselines. Strong background in endpoint automation, application packaging, and cloud-first device management architecture.

CORE SKILLS

Endpoint & Modern Management

- Microsoft Intune / Microsoft Endpoint Manager (MEM)
- Windows Autopilot (Hybrid + Microsoft Entra ID Join)
- Windows 10/11 Enterprise Deployment & Servicing
- macOS & iOS Management (Jamf, Kandji, Apple Business Manager / DEP)
- SCCM / MECM Co-Management & Cloud Migration

Identity & Security

- Microsoft Entra ID (Azure AD)
- Conditional Access / MFA / Identity Protection
- Microsoft Defender for Endpoint
- BitLocker / Windows Hello for Business
- App Control for Business

Cloud & Virtualization

- Azure Virtual Desktop (AVD)
- FSLogix Profile Containers
- Windows 365 Cloud PC

Automation & Engineering

- PowerShell Scripting & Automation
- Azure Automation Runbooks
- Win32 Application Packaging
- Application Lifecycle Management

Professional Experience

T-Mobile - Intune Migration Engineer (Contract)

06/2024 – 04/2026

- Led 100,000+ device migration from Jamf to Microsoft Intune across macOS, iOS, with minimal disruption
- Defined end-to-end migration strategy including rollout planning, communications, and risk mitigation
- Implemented App Control for Business (WDAC) and built application allowlists using Orca Edit and App Control Wizard
- Deployed Intune configuration profiles, compliance policies, and security baselines across enterprise endpoints
- Produced documentation and training materials to support operational transition and sustainment

GoodLeap - Intune Engineer / Architect

04/2022 – 06/2024

- Architected and engineered Intune for 5,000+ Windows devices and 1,500+ mobile devices.
- Designed a multi-session AVD environment with FSLogix and managed multiple AVD images.
- Built a Windows 365 Cloud PC proof of concept and led vendor evaluations before selecting Intune.
- Implemented SCCM Co-Management and migrated endpoints, applications, and policies to Intune.
- Migrated devices from Kandji to Jamf and rebuilt the Jamf environment.
- Managed app lifecycle across Android Play Store, iOS App Store, Windows Business Store, Win32, and LOB apps.
- Implemented BitLocker, MFA, and Conditional Access policies; trained service desk teams on troubleshooting.

Perry Homes LLC - Intune Administrator

08/2018 – 04/2022

- Designed and deployed cloud-managed PCs using Intune, Autopilot, PowerShell, and modern patching for 15,000+ endpoints.
- Implemented BitLocker, MFA, and Windows Hello for Business using Intune profiles and Conditional Access.
- Migrated SCCM Golden Image workflows into Intune using Co-Management and compliance policies.
- Deployed Microsoft Defender for Endpoint and built cybersecurity baselines using PowerShell and Intune scripts.
- Created Entra Automation runbooks and packaged Win32 apps for Company Portal deployment.
- Supported Entra, O365, and SharePoint migrations and built Entra VMs and Entra Lab Services environments.

Aspen Technologies Inc - Senior Level 3 Technical Support Analyst

09/2015 – 08/2018

- Supported enterprise endpoint environment using SCCM, MDT, and Intune for imaging, application deployment, and device management
- Implemented Intune MDM policies and MFA for secure endpoint access across mobile and desktop devices

Boardwalk Pipeline Partners - Senior Client Support III

01/2012 – 04/2015

- Provided executive-level support and served as primary contact for VIP users.
- Managed Active Directory users and computers; collaborated with SysAdmins to simplify directory structure.
- Built and maintained SharePoint sites for IT documentation and training.

ExxonMobil Corp - Executive Support

05/2007 – 11/2011

- Supported executive and trade floor operations across the Exxon campus.
- Designed and tested multi-platform images for global deployment.

EDUCATION

University of Houston

BBA, Management Information Systems
