Summary

Certified Medical Coder with years of experience in medical coding and healthcare claim processing, seeking a role as a Certified Medical Coder. Proven expertise in assigning ICD-10, CPT, and HCPCS codes, maintaining coding accuracy, and collaborating with healthcare providers to enhance reimbursement accuracy. Skilled in EPIC, CERNER, 3M 360, and HIPAA compliance, ensuring adherence to coding standards and payer policies.

Work Experience

Advocate Healthcare

Revenue cycle Coder II | North Carolina | Oct 2025

- Reviewed and coded inpatient and/or outpatient medical records to ensure accurate assignment of ICD, CPT, HCPCS, and modifier codes in accordance with payer, regulatory, and organizational guidelines.
- Analyzed clinical documentation to determine appropriate code selection and supported compliant charge capture, billing, and reimbursement processes.
- Ensured coding accuracy and completeness by applying federal regulations, payer policies, and revenue cycle standards to assigned accounts.
- Collaborated with physicians, clinical staff, and revenue cycle teams to clarify documentation, resolve coding discrepancies, and support timely claim submission.
- Conducted audits and account reviews to identify coding errors, denials, and missed revenue opportunities, and recommended corrective actions when needed.
- Maintained productivity and quality benchmarks while managing assigned work queues and meeting departmental turnaround expectations.
- Assisted in resolving claim edits, denials, and billing issues related to coding, documentation, and medical necessity requirements.
- Stayed current on coding updates, compliance requirements, and industry best practices to support accurate and consistent coding performance.

Cypress Healthcare

Certified medical Coder | Monterey Ca | 11/2024

- Analyzed and coded medical records and patient information for accuracy and compliance with established coding guidelines and regulations.
- Utilized ICD-10, CPT, and HCPCS coding systems to ensure precise and accurate coding of diagnoses and procedures.
- Collaborated with healthcare providers to clarify diagnoses and obtain additional information necessary for accurate coding.
- Conducted audits and reviews of coded data to identify discrepancies and ensure adherence to coding standards.
- Generated detailed reports on coding activities and trends to support decision-making and improve operational processes.

Avosys Technology

Medical Coder 2 | San Antonio, Tx | Feb 2024 - Sept 2024

- Assigned ICD-10, CPT, and HCPCS codes to ensure precise billing and classification of patient records.
- Collaborated with healthcare providers to resolve ambiguous medical information, improving reimbursement accuracy.
- Maintained current knowledge of coding guidelines, payer policies, and regulatory changes to uphold coding standards.
- Contributed to team meetings and process improvement efforts, enhancing productivity and reducing claim denials.
- Adapted coding practices to a range of environments, ensuring consistency across different healthcare systems.
- Delivered coding expertise to multiple departments, including the Emergency Department, Obstetrics, and Same Day Surgery.

Laureate Medical Group/ Northside Hospital

Lab Assistant | Alpharetta, Ga | Jul 2020 - May 2024

- Maintain laboratory equipment calibration and cleanliness to ensure operational efficiency.
- Execute product filling, labeling, sample testing, and inventory management responsibilities with precision.
- Collaborate with team members on specialized projects, ensuring meticulous sample logging and data analysis for publication-ready materials.
- Implement and adhere to standardized lab protocols, achieving a 95% or higher accuracy rate in monthly audits while managing supply chain logistics.

SCT Prep

Remote Coder | Austell, Ga | Mar 2017 - Oct 2023

- Collaborated with billing personnel to verify diagnosis code completeness, ensuring adherence to Local Coverage Determination (LCD) and National Coverage Determination (NCD) standards.
- Applied accurate procedural codes in line with American Medical Association and Centers for Medicare and Medicaid Services guidelines.
- Interfaced with various departments, including Obstetrics, ED and Endocrinology, to maintain coding accuracy and departmental coordination.

Children Healthcare Of Atlanta

Laboratory Assistant | Atlanta, Ga | Aug 2019 - Jul 2020

- Accurately processed and documented patient specimen results, ensuring timely and precise delivery of critical diagnostic information.
- Collaborated with physicians, nurses, and external laboratories to resolve complex test order issues, enhancing patient care and service accuracy.
- Performed quality control tests and maintained meticulous records, adhering to established laboratory protocols and equipment guidelines.

Genova Diagnostic Lab

Laboratory Assistant/Team Lead | Duluth, Ga | Jun 2009 - Jul 2019

- Oversaw the meticulous processing and documentation of patient specimens, prioritizing tasks to ensure accuracy and timely delivery of results.
- Maintained laboratory operations by monitoring inventory levels and proactively restocking supplies to ensure seamless availability.
- Executed and recorded quality control measures and diagnostic tests in accordance with established laboratory protocols using designated instruments.

- Performed comprehensive histological procedures, including tissue preparation, embedding, cutting, and staining, while ensuring proper specimen handling and labeling for cataloging purposes.

Education

Gretna Career College

Nurse Technology, Nursing | Gretna, LA | Oct 2006

Certifications

Certified Professional Coder | AAPC | 2023

Skills

Data Logging, ICD-10 Requirements, Medical Terminology, Quality Control Procedures, Claims Processing, Medical Billing, Healthcare Claim Coding, Data Entry, CPT Coding, EPIC, CERNER, HIPAA Compliance, 3M 360, Skills: ICD-10-CM Coding, EHR/EMR Systems, ICD-10-CM/PCS Coding
