## PROFESSIONAL SUMMARY

Highly analytical, solutions-driven Systems Professional with a Master's in Logistics studies and extensive experience executing ERP systems optimization, compliance reviews, and financial data reconciliations within large scale manufacturing, services, and industrial environments. Proven expertise in managing downstream supply chain financials, ensuring rate structure accuracy, deactivating inactive routings, and evaluating G/L Cost Elements & Cost Centers. Expert in major enterprise platforms including SAP (MM, FI, SD, WM) and Oracle NetSuite. Recognized for strong interpersonal leadership, cross functional collaboration, bilingual capabilities (English/Spanish), and a proactive approach to automating workflows and mitigating transaction risks.

## CORE COMPETENCIES

- **ERP & Systems Logistics:** SAP S/4HANA (MM, FI, SD, WM, Basis), Oracle NetSuite, MP2 ERP, RFSmart IMS.
- **Logistics Payables & Rate Structures:** Invoice Verification, Billing Discrepancies, Fuel Surcharge Tracking, Freight Rating Compliance.
- **Financial Tracking & Close:** G/L Cost Elements & Cost Centers, Month-End Closing, Cash Flow Reconciliations, Accounts Payable/Receivable.
- **Data Analytics & Optimization:** Advanced Excel (Macros, Complex Formulas), Data Extraction & Cleaning, Trend Analysis, Operational KPIs.
- **Internal Controls & Risk Management:** IT SOX Compliance, Control Automation Testing, Standard Operating Procedures (SOPs), Policy Formulation.

## PROFESSIONAL EXPERIENCE

### SHADOW SYSTEMS

Dec 2021 – June 2026

#### *Accounts Receivable & Inventory Control Specialist*

- **Financial & Receivable Management:** Directed daily transaction postings (ACH/Wire, checks, credit cards) and processed daily billings, successfully maintaining accounts within standard targets and reducing past-due balances under 30 days.
- **Data Reconciliation & Close:** Performed daily update and rigorous reconciliation of cash flow reports to verify completeness of inbound/outbound transactions; executed month-end closing journal entries and optimized tracking models using advanced Excel formulas and macros.
- **Billing Discrepancy Resolution:** Handled customer statements, processed credit memos and refunds across NetSuite and e-commerce platforms, and closely collaborated with corporate stakeholders to identify and resolve complex billing variances.
- **Logistics & Inventory Integration:** Served as the primary technical liaison for the implementation and configuration of the RFSmart Inventory Management System in Oracle NetSuite, boosting overall inventory reliability to 98%.
- **Cross-Functional Liaison:** Managed communication streams with accounting departments and external vendors to streamline purchase order compliance and instantly clear open PO variances.

### DON MIGUEL MEXICAN FOODS INC. (MEGAMEX FOODS)

Mar 2020 – Aug 2021

#### *Parts Room Attendant & Systems Coordinator*

- **Procurement & System Routing:** Operated the MP2 ERP system to build precise purchase orders, maintain contract-compliant communications with suppliers, and guarantee adherence to baseline rate targets.

- **Financial Alignment & Auditing:** Partnered directly with the Corporate Finance department to audit, cross-verify, and match vendor bills against procurement records, ensuring flawless execution of accounts payable.
- **Inventory Control & Modeling:** Structured custom Excel data models to track minimum, maximum, and safety stock thresholds, successfully minimizing obsolete parts and optimizing warehouse availability.
- **Data Integrity & Discrepancies:** Coordinated monthly cycle counts and annual comprehensive physical inventories; systematically evaluated variations to adjust and preserve true asset valuations in the ERP database.

## **GEODIS**

*June 2019 – Mar 2020*

### **SAP Inventory Analyst**

- **SAP Data Tracking:** Utilized enterprise SAP modules to track, evaluate, and modify high-volume warehouse transactional data during large-scale Samsung logistics operations.
- **Root Cause Analysis:** Audited structural data anomalies and transaction errors within SAP, executing rapid system corrections that drove inventory data reliability up to a perfect 100%.

## **RMCS C.A.**

*2011 – 2019*

### **CEO, IT SOX Audit and Compliance Services**

- **Process Controls & Auditing:** Supervised and conducted extensive control evaluations and business cycle reviews within enterprise SAP environments (MM, Basis, FI, SD, WM) to guarantee operational compliance.
- **Financial & Operational Oversight:** Assessed internal control frameworks for sales cycles, purchasing, and logistics distribution; formulated and rolled out corporate standard procedures to secure critical financial records.
- **Data-Driven Analytics:** Applied advanced data analysis tools to isolate underlying transactional patterns, empowering clients to clear system discrepancies and refine operational decision-making.

## **HLB INTERNATIONAL**

*2007 – 2017*

### **Manager, IT SOX Audit**

- **Internal Control Assessments:** Evaluated multi-platform internal controls across core business cycles including procurement, sales, asset costing, inventory, and ledger accounting.
- **System Validations:** Spearheaded forensic and data-integrity evaluations on complex application structures for premier industrial clients across the energy and chemical manufacturing sectors.

## **PRICEWATERHOUSECOOPERS (PwC)**

*1993 – 1997*

### **Senior IT Auditor**

- **Control Evaluation:** Audited internal workflows, ledger segregation of duties, and transaction mapping for inventory and financial costing modules across various customizable enterprise platforms.
- **Process Automation:** Designed and executed automated technology tests to correct complex calculation mismatches, engineering robust cost-management procedures for industrial and utilities clients.
