SUMMARY

Detail-oriented IT professional with 4+ years of experience in NetSuite Suite Script development (2.x & 1.0) and Suite Cloud platforms (Suite Talk, Suite Flow). Strong understanding of ERP operational processes, including Order-to-Cash, Order-to-Pay, and Record-to-Report, with experience designing, developing, and implementing solutions to meet complex business requirements. Skilled in gathering requirements, prototyping, testing, training, and defining support procedures, with a proven ability to deliver multiple business solutions under tight deadlines. Experienced in integrating NetSuite with other systems, enhancing operational efficiency, and supporting business transformation.

SKILLS

- **Technical Skills:** Oracle NetSuite, JavaScript, SQL, PHP, REST APIs, Junit, Selenium WebDriver, TestNG.
- **Project Management:** Agile, Scrum, JAD Sessions, Stakeholder Management, Team Leadership.
- **Tools:** ARIS (exposure), Jira, Confluence, Microsoft Visio, Lucid chart, Draw.io, Postman.
- **Platforms:** Visual Studio Code, Sublime Editor, Eclipse
- **Business Process Modelling Tools:** Process Analysis, Process Design, Requirements Gathering, Workflow Optimization, SOP Development, ARIS (exposure)

WORK EXPERIENCE

Software Developer Vedika Web Solution, Pune	August 2021- Current
• Developed, customized, and optimized NetSuite ERP solutions using SuiteScript 1.0/2.x, SuiteFlow, and SuiteTalk to support end-to-end business processes across Finance, CRM, E-commerce, and Operations. • Built and maintained User Event, Client, Scheduled, Map/Reduce, and Suitelet scripts, improving automation across Order-to-Cash, Procure-to-Pay, and Record-to-Report cycles. • Designed and implemented custom records, workflows, RESTlets, saved searches, and integrations to support scalable ERP functionality for multi-department operations. • Integrated NetSuite with external platforms such as Shopify, DHL, and internal web apps using REST APIs, SuiteTalk SOAP services, and SFTP-based data exchange. • Created solutions to automate invoicing, item fulfillment, item receipt processing, payment updates, and custom approval routing using Suite Flow and Suite Script logic. • Participated in defining system strategy, drafting functional & technical requirements, prototyping features, and developing scalable NetSuite customizations under tight deadlines. • Collaborated with finance and operations teams to map and optimize O2C, O2P, and R2R processes and ensured alignment between business workflows and NetSuite configuration. • Designed workflow diagrams (BPMN 2.0) and SOP documentation to translate business requirements into technical executable solutions in NetSuite. • Conducted Unit Testing, UAT support, issue debugging, and production deployment, ensuring all NetSuite customizations are stable and compliant with best practices. • Provided post-implementation support, troubleshooting script errors, performance issues, and integration failures to maintain smooth business operations.	

EDUCATION

Marathwada Mitra Mandal Institute of Technology Bachelor of Computer Engineering	Pune, India August 2020.
--	------------------------------------

CERTIFICATES

Full-Stack Web Development Bootcamp

- Completed a comprehensive full-stack program covering HTML, CSS, JavaScript, Node.js, React, PostgreSQL.
- Gained practical experience in building modern web applications and decentralized apps using industry-standard tools and frameworks.

Automation Testing (Java)

- Developed skills in Java-based automation frameworks, including Selenium WebDriver, TestNG, and JUnit.
- Gained hands-on experience in writing, executing, and maintaining automated test scripts for web applications.
