

Network Engineer

Zarina Yusubalieva

zyusubalieva@gmail.com | (919) 889-9182 | Tampa Area, FL

Professional Summary

Highly skilled and results-driven Network Engineer with years of experience managing complex network infrastructures. Proficient in troubleshooting, optimizing, and enhancing network systems while delivering cost-effective solutions tailored to client needs. Strong expertise in configuring routers, switches, and network devices. Adept at collaborating with cross-functional teams to deliver secure, high-performing networking solutions.

Technical Skills

- Protocols & Routing: TCP/IP, OSPF, BGP, EIGRP, Static & Dynamic Routing, Inter-VLAN Routing, Subnetting, IP Addressing
- Monitoring & Troubleshooting: Wireshark, tcpdump, Ping, Traceroute
- Network Automation & CI/CD: Ansible, Jenkins, Git
- Cloud Platforms & Networking: AWS, VPC, Subnets, Load Balancing
- Infrastructure as Code: Terraform, AWS CloudFormation
- Tools & Systems: ServiceNow, Jira, FreshDesk

Voice Network Engineer – TELEVOIPS

September 2025 – Present

- Provided technical support via phone, email, and ticketing systems
- Troubleshot hardware, software, and network connectivity issues
- Assisted with VoIP setup, configuration, and call-quality troubleshooting
- Supported routers, switches, firewalls, and VoIP phones
- Used diagnostic tools to identify and resolve performance issues
- Delivered clear communication to non-technical users
- Documented issues, resolutions, and support steps
- Collaborated with team members and escalated advanced issues when necessary

Network Engineer – Cisco

September 2022 – May 2025

- Maintained scalable and secure enterprise network infrastructures
- Configured and managed routers, switches, and firewalls across LAN/WAN environments
- Resolved network connectivity issues to minimize downtime
- Monitored network performance using SolarWinds and Wireshark
- Configured routing protocols including OSPF, BGP, EIGRP, and MPLS
- Supported network migrations, upgrades, and cloud integrations
- Managed network change processes using ServiceNow and Jira
- Documented network configurations and troubleshooting procedures

Network Support Engineer – ATSG

June 2021 – August 2022

- Logged and prioritized customer incidents via phone, email, and self-service platforms
- Provided troubleshooting for network and connectivity issues
- Escalated unresolved issues according to SLAs
- Maintained consistent communication with customers

- Created documentation and knowledge base articles

Education & Certifications

Master's Degree – Tashkent State Pedagogical University (2012–2014)

Cisco Certified Network Associate (CCNA) – Active (Expires: March 2027)

Soft Skills

- Problem-Solving & Troubleshooting
- Team Collaboration & Communication
- Continuous Learning & Adaptability
